

**Pepper - Hot**

**Bhut Jolokia - Peaches & Cream**

Cross between a White Ghost and a Rough Peach Ghost which created a smooth Peach Ghost. The pods start off a light green and then go to a creamy white then finally peach. Very beautiful variation. Looks like a Peach Habanero but it's hotter. Flavor is sweet with typical Bhut Ghost flavor. Very hot. Great option for hot sauce makers. SHU's 700k-1000k
